

NEW CONSTRUCTION

INTERIOR DESIGN

Building a new space is an exciting opportunity to create something truly unique, and I'm here to support you every step of the way. From developing the initial concept and selecting materials to collaborating with builders and architects, I'll help bring your vision to life. My services include lighting design, fixture selection, and full project coordination to ensure a seamless and stress-free experience from start to finish.

STEP 1

Initial Consultation

The process begins with a consultation where we discuss your vision, functional needs, and budget for your new space. This meeting allows me to understand your style preferences and project goals, laying the foundation for a design experience that is personalized and exceptional.

STEP 2

Space Planning

Using a thoughtful approach, I'll create a detailed space plan that maximizes functionality and flow while reflecting your vision. From optimizing traffic patterns to incorporating storage solutions, every detail is carefully considered to ensure the space is both practical and beautifully designed.

STEP 3

Furniture, Finishes, & Materials Selection

I'll guide you through the selection of furniture, finishes, and materials that align with your style and functional requirements. With an eye for design and knowledge of the latest trends, I'll help you make choices that elevate the overall aesthetic of your space.

STEP 4

Lighting Design

Lighting plays a key role in setting the tone of any space. I'll develop a comprehensive lighting plan, selecting the right fixtures and placements to enhance functionality and create a warm, inviting ambiance.

STEP 5

Custom Details & Features

For a truly unique touch, I offer guidance on custom elements such as cabinetry, millwork, or built-in shelving. These personalized details add character and value to your space while seamlessly blending with the overall design.

STEP 6

Project Management & Coordination

I handle the coordination of all aspects of the design process, working closely with builders, architects, and contractors to ensure timelines are met and the project stays on budget. My role is to keep everything running smoothly, so you can enjoy a stress-free experience.

STEP 7

Final Walk-Through

Once construction is complete, we'll conduct a detailed walk-through of the space to ensure every aspect of the design meets your expectations. Your satisfaction is my priority, and I'm committed to delivering a finished space that exceeds your vision.
